Step 2 - Monogram Letter:

With contrasting color and following letter grids (one per cloth), use the duplicate stitch method to stitch over knit stitches.

To stitch a duplicate stitch, begin by pulling needle threaded with yarn from back of cloth to the front of the cloth up through the bottom point of the V of the stitch you wish to duplicate. Pull the yarn through.

Next, slide the needle behind the V of the stitch directly above the stitch you are duplicating from right to left. Pull the yarn through.

To complete the stitch, return needle to beginning point, this time pulling the needle from the front of the cloth to the back of the cloth. Pull yarn through.
